This is a vital commitment to the health of all

TOGETHER WE ARE SAFE/TOGETHER WE ARE SAFER

A little attention on the construction site and in daily life is enough to do a lot against the coronavirus epidemic. Each of us is essential to stop the spread of Covid-19. Here you will find the essential tips to protect yourselves and build a safer construction site.

A PROTECTION STRATEGY THAT INCLUDES THE CONSTRUCTION SITE AND THE HOUSE

In this real battle against the virus we must all act intelligently and responsibly both at work and at home. The spread of the virus must be prevented and stopped through every daily action. Here we have set out the rules that must be applied at the construction site and the behaviours that must be implemented everywhere.

THE WORKER SOCIAL LIFE

self-protection

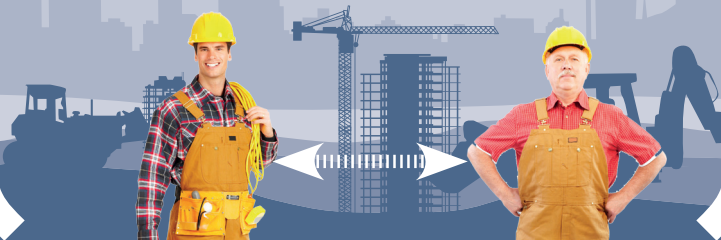

THE COMPANY THE CONSTRUCTION SITE

Construction site protection

Together we can build a safe construction site

SAFETY REGULATIONS FOR THE CONSTRUCTIONS SITE DURING COVID-19

Standards and on-site checks

Checks and information for all

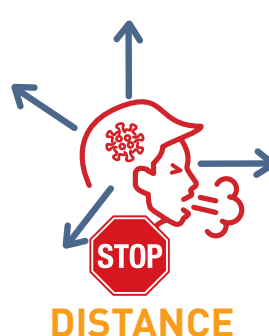

Access to the construction site prohibited in case of flu symptoms

Before entering the construction site, the body temperature will be checked on each worker

Inform the employer or the person in charge immediately of any flu symptoms occurring after entering the construction site

In case of flu symptoms stay at a safe distance from other people at the construction site

Inform your employer or the person in charge of any contact with people who are virus-positive

Shared efforts on the construction site and everywhere

How to behave with co-workers and other people

No handshakes

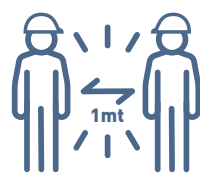

No hugs

Always keep a distance of at least one metre from each other

Use the masks appropriately

Do not share bottles and glasses

Follow the rules on hand hygiene

Let's build effective protection on the construction site together!
